

Course Outline

Internet

Duration: 1 day (6 hours)

Learning Objectives:

This course provides trainees with an introduction to the concept of the Internet and the opportunity to gain a broad understanding of how the World Wide Web works. They will become proficient at using the Internet Explorer 5.0 browser, learning how to search for, find and access information on the Web using a variety of different software tools. They will be able to communicate information with others by means of Internet e-mail and newsgroups.

Target Audience:

Anyone thinking of connecting to the Internet and browsing the World Wide Web using Internet Explorer. A working knowledge of PCs and Windows is assumed, gained from the workplace or by prior attendance on a "PC Fundamentals" course

Topics Covered:

- Getting Started with Internet Explorer 5.0
